

# CFR BALE PRO® 650 / 651 / 960 / 1251

by Highline Manufacturing - A Division of Bourgault Industries Ltd.

The Bale Pro® series from Highline® allows you to efficiently process round and square bales.

With 5 options (650 / 651 / 960 / 1251 / TOP GUN®) to choose from there's one that is the best fit for your cattle operation. The CFR (Complete Feed Ration) modular system allows you to expand your Bale Pro® as your operation evolves.

## THE FEED CHOPPER™

The Feed Chopper™, exclusively from Highline®, is a secondary processing option to create shorter cut lengths.

Rather than stationary knives that pulverize or drag leaves off of stems, the Highline® Feed Chopper™ truly slices through the hay creating an optimal consistency.
